CENTRAL INTELLIGENCE AGENCY

INFORMATION REPORT

This material contains information affecting the National Defense of the United States within the meaning of the Espionage Laws, Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law.

SECRET/U.S. OFFICIALS ONLY

Comment: "Hoko" stands for the German word "hochkonzentriert" (highly concentrated). This lengthment distills with high pressure															
DATE OF INFO. PLACE ACQUIRED This is UNEVALUATED Information THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE. THE APPENSAL OF CONTENT IS TENTATIVE. (FOR REV SEE REVERSE) 1. During 1953 the crude oil distillation department of the Pet Nitrogen Works (Petil Nitrogen Nurse) was expanded through the addition of three distillation towers. The daily capacity of the three towers is approximately 250 tons. Thus, the Pet Nitrogen Works has become the largest gasoline distillation plant of Hungary. 2. The so-called "Noko" department 1 had been expanded with the addition of a new nitrate distillation enterprise. 3. A further expansion of the factory can be concluded from the fact that on the western side of the road leading from Pet to Varpalota the construction of a new workers estilement is in progress. The workers will live in two-family houses, each house with a garden. Each dwelling unit vill consist of two rooms and a kitchen. The completion of 300 such dwelling unit vill consist of two rooms and a kitchen. The completion of 300 such dwelling unit vill consist of two rooms and a kitchen. The completion of 300 such dwelling unit vill consist of two rooms and a kitchen. The completion of 300 such dwelling unit vill consist of two rooms and a kitchen.
